Hi all,

In the meeting today we discussed:

- We were able to obtain images from the flea3 cameras that Amir's algorithm can track.
- We were able to use labview and record 2 cameras at the same time without hardware triggering. We will talk to Sam and investigate this.
- For the coming week, we will need to determine how far apart to place the cameras, etc. and complete the set up with an aluminium stand. If anyone has any resources to help with this. please let us know.
- Lastly we talked about literature review feedback. We have attached them to this email for convenience

Cheers,

Gary and Liam

Hi All,
I'm afraid that I cannot make it to the Soulface meeting today. Also, I will be o'seas from 1-15 June, so I will also miss the next couple of meetings.
Cheers,
Martyn.
